

**WORKING WITH YOU TO SAVE
MONEY, GROW YOUR BUSINESS
AND HELP THE ENVIRONMENT**

Carbon Neutral is an expert in carbon markets. Drawing on over 13 years experience, we collaborate closely with our clients to ensure our work fits with your carbon, environmental and corporate social responsibility plans.

Carbon Neutral assists you to cut carbon emissions and energy costs. These business gains can be measured. We can:

- Measure your energy use and demonstrate practical ways to be more efficient and cut costs
- Boost staff engagement through environmental programs
- Meet supply chain environmental demands and attract new, environmentally aware clients
- Assess all your travel, events and vehicle fleet emissions
- Increase brand value by proudly showing off your environmental effort to customers

THE MARKETPLACE VALUES SUSTAINABLE PRACTICES AND IT'S IMPORTANT TO HAVE A SOUND ENVIRONMENTAL PLAN TO SUCCEED

MEASURE/VERIFY

Consistent with
Australian standards

REDUCE

Conduct site audit &
develop a plan for
emissions
management

OFFSET

Using local forestry-
based offsets/
international carbon
reduction projects

CARBON MANAGEMENT

Carbon Neutral is one of Australia's leading carbon solutions providers. We help you minimise your footprint on the environment by working with you to measure, reduce and offset your greenhouse gas emissions. Together we can cut emissions, save money, meet supply chain requirements, strengthen client relations and build brand value.

SAVE YOUR ENERGY

We assess, audit and deliver answers that are tangible, low cost and energy efficient. Carbon Neutral includes technological and behavioural changes in these solutions. We also track the way energy is used in your organisation and show you practical ways to use that energy more efficiently.

TRAVEL, EVENT AND FLEET OFFSET

Carbon Neutral is a specialist in measuring travel, vehicle fleet and event carbon inventory. Our carbon calculators are updated regularly to accurately measure and record emission sources.

ZERO FOOTPRINT

It is a great achievement to claim that your company has a zero footprint. Carbon Neutral can help you to make a service or product 'carbon neutral' and to pursue the Federal Government's National Carbon Offset Standard (NCOS) certification.

JOIN US IN THE HOTSPOT

The Southwest Australia Ecoregion is one of the world's biodiversity hotspots. Carbon Neutral's plantings take place within the Yarra Yarra Biodiversity Corridor, one of Australia's biggest biodiverse, carbon sink projects. By supporting Carbon Neutral's tree plantings you can help protect this incredible natural wealth. We plant trees and shrubs that are native to the area, with an assorted species mix to revive the landscape and recreate natural habitats. We offer a range of local reforestation offsets under various accreditation standards.

PLANT-A-TREE PROGRAMS

Carbon Neutral's Plant-a-Tree Program allows you to establish trees for every customer, product or service to demonstrate your commitment to the environment. We'll work with you to structure a program that's right for your business.

MAKE A DIFFERENCE

Carbon offsets allow you to support projects that help cut greenhouse gas emissions. Every offset project we provide makes a real difference and has a unique story. Our clients have helped plant native trees in Australia, supported wind farms in developing countries, converted biomass waste to energy, and more. Carbon Neutral can design smartly priced offsets that are relevant to your business and match your carbon reduction goals whether they be statutory obligations or voluntary. You can even be allocated direct plantings within the Yarra Yarra Biodiversity Corridor which you can then promote to inspire staff and customers.

ACT NOW

Tap into our trusted expertise and proven strategies to create an offset portfolio that suits your business, your budget and your environmental goals.
